1 Your Contribution to the Group

During the past week I have worked on multiple tasks, starting with coordination of the team. This included meeting with each individual team, discussing implementation and interfacing between the packages that we wrote. I also wrote the interface between AI and Communications, which translates AI commands to Robot commands. I worked on implementing algorithms specific to the milestone with Aris and Roy, mainly for the defending robot. This involved a lot of testing, which most of the team was present for.

2 High Points of Your Contribution

- Coordinating between teams.
- Writing the interface between AI and Communications, which translates AI Vectors into robot Commands.

3 Areas to Improve

- Implement better test suites!
